

## PRESS RELEASE

### NETGUARDIANS INCLUDED IN CHARTIS RISKTECH 100

#### **NetGuardians has been recognized as one of the world's top 100 risk-mitigation vendors in the leading global survey**

**Yverdon-les-Bains, 31.10.2017** - NetGuardians, the award winning Swiss Fintech firm, announced today that it has been included in the Chartis RiskTech 100 2018 survey, the first time it has made it into the rankings.

Included for its financial crime solution for anti-fraud as well as its focus on cyber risk, NetGuardians secured its position along side other established companies. It was one of just seven new entrants in the annual survey, which is in its 12<sup>th</sup> year and which seeks to identify the most compelling risk tech vendors each year.

Joel Winteregg, NetGuardians' co-founder and chief executive officer, said: "Chartis RiskTech 100 is globally recognized as the most comprehensive independent study of the world's major players in risk and compliance technology and we are proud to be included. We believe our focus on banking fraud prevention is what sets us apart and offers organizations a more effective and efficient solution to risk and fraud."

## About NetGuardians

Named a Gartner Cool Vendor in 2015, NetGuardians is a leading FinTech company recognized for its unique approach to fraud and risk assurance solutions. Its software leverages Big Data to correlate and analyze behaviors across the entire bank system – not just at the transaction level. Pre-defined controls enable banks to target specific anti-fraud or regulatory requirements. A controls update service ensures financial institutions benefit from ongoing protection in the face of the continually evolving risk challenges. Headquartered in Switzerland, the company has offices in Kenya, Singapore and Poland.

## About Chartis

Chartis is the leading provider of research and analysis on the global market for risk technology. It is part of Infopro Digital, which owns market-leading brands such as Risk and Waters Technology. Chartis' goal is to support enterprises as they drive business performance through improved risk management, corporate governance and compliance, and to help clients make informed technology and business decisions by providing in-depth analysis and actionable advice on virtually all aspects of risk technology.
