

Press Release

NETGUARDIANS INCLUDED IN CHARTIS RISKTECH100® FOR SECOND YEAR RUNNING

NetGuardians is recognized in a prestigious survey of the world's top 100 risk technology vendors for the second consecutive year

Yverdon-les-Bains, 19 November 2018: NetGuardians, the award-winning Swiss Fintech, announced today that it has been included in the Chartis RiskTech100® 2019 survey reflecting the ongoing impact of its real-time fraud and cyber risk-mitigation software solution.

This is the second consecutive year that NetGuardians has made it into the prestigious annual RiskTech100® survey, which focuses only on risk and compliance technology. NetGuardians secured its place based on stringent analysis and buyer feedback on its solution's functionality, core technology, strategy, customer satisfaction and market presence.

Joël Winteregg, NetGuardians' co-founder and chief executive, said: "Inclusion in the Chartis RiskTech100® 2019 is a magnificent reward for all the hard work the NetGuardians team has put in over the past 12 months improving and refining our fraud-mitigation solution. Fraud management is a crowded market and it's sometimes difficult for buyers to distinguish the hype from reality. This survey helps them do that."

ABOUT NETGUARDIANS

NetGuardians is an award-winning Swiss FinTech. Established in 2007, we help more than 50 Tier 1 to Tier 3 banks worldwide fight financial crime. NetGuardians developed the first augmented-intelligence solution made for banks to proactively prevent fraud. We empower our clients by providing machine-learning technology together with contextual information and a great user experience. Banks using the NetGuardians' solution achieved 83 percent reduction in false positives, saved 93 percent of the time lost in fraud investigation and prevented new fraud cases. We were recognized as a Gartner Cool Vendor in 2015 and a Chartis RiskTech100® Vendor in 2018. For more information: www.netguardians.ch

ABOUT CHARTIS

Chartis is the leading provider of research and analysis on the global market for risk technology. It is part of Infopro Digital, which owns market-leading brands such as Risk and WatersTechnology. Chartis's goal is to support enterprises as they drive business performance through improved risk management, corporate governance and compliance, and to help clients make informed technology and business decisions by providing in-depth analysis and actionable advice on virtually all aspects of risk technology.
